Access MMIS for Historical SSI Data

April 13th, 2023

Hello Member Services,

Although historical SSI data was converted into TEDS in 2019 during go live activities, it has recently come to our attention that some records may not be available through the SDX Individual Inquiry screen.

While we work to identify the issue and resolution, please access interChange (also known as MMIS) to review data for anyone who may have lost SSI prior to 2009. This information is relevant to determine eligibility in Pickle, DAC, and Widow/Widower categories if SDX data is not available in TEDS. Be very careful when reviewing the data to ensure it matches the individual being reviewed in TEDS.

Attached is a reminder about how to access and interpret SDX data from interChange.

Thanks,

TEDS Engagement Team

How to Find SSI Information in MMIS

Overview

Most historical Supplemental Security Income (SSI) data was converted into TEDS in 2019. Currently, there are some records that may not be available through the SSI inquiry screen.

While those records are being converted, workers must access MMIS to review data for anyone who may have lost SSI prior to 2009.

This information is relevant to determine eligibility in Pickle, DAC, and Widow/Widower categories if SDX data is not available in TEDS. Review all data to ensure it matches the individual being reviewed in TEDS. The inability to person match is the reason why these historical records were not previously converted.
